kreevo.

Congrats! 🎉 You bought Ultimate SFX Pack from Kreevo.

264 sound effects (v2.0) — thank you for supporting an independent creator.

What's inside

- 264 sound effects in 44 folders: whooshes, pops, UI clicks, glitches, impacts, risers, VHS and more
- 43 brand-new Kreevo Original sounds (marked ★ in Sound List.pdf)
- WAV 48 kHz, level-matched and trimmed, ready to drop on your timeline
- Works in Premiere Pro, After Effects, DaVinci Resolve, Final Cut and CapCut
- Royalty-free in personal and client projects (see LICENSE.txt)

How to install

1. Unzip the download.
2. Keep the folder somewhere easy to find. Open **Sound List.pdf** to browse every sound.
3. Drag any sound straight onto your timeline.

Quick tips

- Use whooshes on cuts and transitions.
- Use pops when text or stickers appear.
- Keep SFX quieter than your voice — around -18 to -24 dB sounds natural.
- In Premiere Pro, add the folder to Media Browser favorites for one-click access.
- Want SFX one click away inside AE/Premiere? Try CreatorStash.
